Some Cool Sounding Buzzwords

Less Buzzy and Somewhat More Explanaotry Subtitle

Goals

The main goals for this slide:

▶ This is just to show you how this *template* works

▶ There are two 'emphasize' functions used to highlight & italicize texts

    ▶ '\empy' does *this* and '\empr' does *this*.

▶ The colors in this template is selected from DKU Logo:

▶ Note that hyperlinks, by default, are not highlighted. Of course, you can change this: e.g., *https://dukekunshan.edu.cn*

Example

A (hopefully) useful function in this LaTeX template is:

$$\examplebox\{ExampleTitle\}\{ExampleContents\}$$

which does this:

> ### Example of the Command \examplebox
>
> This is what it does. Pretty self-explanatory, isn't it?
> Given the color them, I *recommend* using \empr inside of
> examplebox. The \empy command does not look *that* good.

Math

There are color boxes for Definition, Theorem, and Lemma:

> **Definition 1: Test**

> **Theorem 2: Test**

> **Lemma 3: Test**

Proof.

$\square$

You can refer to them by Def. 1, Thm. 2, Lem. 3.
